Re: Bol Perca Zone, Reservoir E  
South Thornwell Field  
Jefferson Davis Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **DENBURY ONESHORE, LLC** for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the Bol Perca Zone, Reservoir E, in South Thornwell Field, Jefferson Davis Parish, Louisiana, for which rules and regulations were established and drilling and production units were created for the exploration for and production of gas and condensate by the 479-C Series of Office of Conservation Orders, including the unit designated BOL P RE SUB:

1. To permit the applicant to drill, designate and utilize the Denbury Onshore, LLC – Abshire 33 No. 1 Well as an alternate unit well for the BOL P RE SUB, said well located as shown on the plat attached hereto, in accordance with the spacing provisions of the 479-C Series of Office of Conservation Orders and LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E).
2. To permit the operator to produce the unit allowable from the existing unit well, the proposed alternate unit well, or both, at its option.
3. To find that the aforementioned well is necessary to efficiently and economically drain a portion of the reservoir covered by the unit which cannot be so drained by any existing well within said unit.
4. Except to the extent herein designated, to continue in full force and effect the provisions of the 479-C Series of Office of Conservation Orders and the units created thereby.
5. To consider such other matters as may be pertinent.

Page 2

The Bol Perca Zone, Reservoir E, in the South Thornwell Field, is hereby defined as being that gas and condensate bearing zone encountered between the depths of 11,554 feet and 11,823 feet (electrical log measurements) in the Denbury Onshore, LLC – Lacassane 33 No. 4 Well located in Section 33, Township 11 South, Range 4 West, Jefferson Davis Parish, Louisiana. This definition is identical to that proposed by the applicant at a public hearing held on February 14, 2006, under Docket No. 06-122. It is expected that an order will be issued by the Commissioner of Conservation in said docket before the hearing in this matter is held.

In the opinion of the applicant, the drilling, designation and use of the Abshire 33 No. 1 Well is necessary to efficiently and economically drain the subject unit and will not cause harm or injury to others. The proposed drilling, designation and use of said well should increase efficient recovery of the contents of the subject reservoir and promote orderly development of the field.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal along with a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed herewith is our check on behalf of the applicant in the amount of \$755.00 **made payable to the Office of Conservation** and representing the required hearing application fee.

Very truly yours,

LISKOW & LEWIS
